

ANGUS DESIGN AWARDS SCHEME

Guidelines for Applicants

All applicants are requested to note the following entry requirements

Entries should be submitted **no later than 10 October 2008**, accompanied by: -

- The Angus Design Awards Scheme application form (additional copies available on request)
- One or more A2 size display boards (preferably “Kappa” board or stiff mounting board), in portrait format. If clip frames are used, please use acrylic glazed types and not glass.

The display board should incorporate the following information: -

- A location plan which clearly identifies the building (an O.S grid reference would be useful for entries in rural areas);
- Colour/black and white photographs of the building, showing at least one complete elevation, particularly the elevation that is open to public view. Other photographs may include close-up details/interior shots or other relevant information.
- An area of text giving details relevant to the application, for example, the client’s brief, how the design evolved, designer’s and contractor’s details etc. The name/address and construction dates of the property should be clearly displayed.

There is no entry fee to the Awards Scheme but the organisers reserve the right not to consider applications that do not conform to the above entry requirements.
