B1988.33 Figure Drawings

A book of figure drawings by David Waterson RE, 1913. This collection of 47 studies of the female form show Waterson's ability with pure line and most are handled in a free flowing manner unhampered by detail. As a result, they have a fresh lightness of touch that is very modern in style.

A small notebook of 23 artist's palettes showing how colors were placed on the painting palette by each artist. Compiled and handwritten by David Waterson RE.
