

Parental Involvement – Edzell Primary School – Getting Parents Involved

Parents are invited for a 'coffee and chat' afternoon for those interested in becoming volunteers. It is a chance to explain the disclosure procedure for new parents and to give them an idea of the areas they can help with in school.

Parents are involved in many areas within the school: swimming, computing, Maths, games, resources and helping the children create an attractive entrance to the school.

They also run the school choir and have set up the new library system which they run on a weekly basis. Parents come in to read to the P1/2 class and are involved in maintaining the school garden, greenhouse and playground furniture. The parents are trained and fully involved in Moving Image Education in the upper classes.
