Foreword

- 1 As we start this new year with greater clarity, a greater determination to succeed and a renewed commitment to provide services, with and for, our children & young people, we want to raise the ambitions of our young people so they can compete in a global economy.
- 2 March 2016 will see the transition from the People Directorate to the Children & Learning Directorate. Adult and Older People's Services will become part of a new Integrated Joint Body for Health& Social Care. This will be led by Vicky Irons, Angus' Chief Integrated Officer. Children's Social Work; Education and Criminal Justice Services remain under my leadership. In preparation for the reshaped directorate we have been working on our statement of ambition, values and behaviours.
- 3 Early in 2016, this will be finalised around the four points of a compass:
 - North our commitment to the young people of Angus
 - South our commitment to improve
 - West management's commitment to our staff
 - East expectations of all our staff in relation to our values and behaviours
- 4 Children & Learning Committee report 435/15 sets these out in more detail.
- 5 For me, the statement of ambition sets out our clear purpose. It outlines our values and expected behaviours and respects the qualities of our multidisciplinary team. It invites us to work across what has been seen as distinct boundaries, whether departments or disciplines. It will be through such levels of inter-working, that new insights and opportunities will open and see increased benefits for our children and young people.
- 6 2016 brings a further opportunity to embed Getting it Right for Every Child into all our practice. Our statement of ambition will guide our approaches and provide our narrative for improvement. As such, I look forward to another successful year despite a drive for ever- faster change, increased expectations and advancements of new technologies and the current adverse economic climate.
- 7 We are a strong workforce who have demonstrated an ability to adapt and succeed because of our dedication to the citizens of Angus. As we reshape into new teams around Adults & Older People and Children & Learning, there is every reason to believe we will remain resilient and effective.

Margo Williamson Strategic Director – Children and Learning 8 The vision of Angus Council is that:

'Angus is a place where a first class quality of life can be enjoyed by all'

- 9 Behind this vision is a set of core values, attitudes and behaviours that underpin the work of the Children and Learning Directorate.
- 10 To ensure that we maximise our contribution to the Council's vision, we will have an unrelenting and ambitious focus on improving outcomes for all of those who use our services. This will directly benefit the recipients of our services, but will also have a wider impact on families and communities throughout Angus.
- 11 We will maximise opportunities for all by adopting preventative approaches, intervening as early as possible, and in all situations personalising services to meet the needs of each individual.
- 12 We will ensure that our processes are conducive to improving outcomes by listening attentively to all feedback that we receive; by continuously improving the quality of our services and systems; and by reviewing, challenging and streamlining our practices and procedures.
- 13 We will encourage and hold each other accountable for the following values and behaviours:

We will continuously seek to improve our services.
We will act with honesty and integrity at all times.
We will act responsibly and will be accountable for our actions.
We will do what we say and do it well.
We will acknowledge when we get things wrong.
We will promote equity and tackle discrimination and disadvantage.

- 14 We expect these values and behaviours to be evident in the way that we engage with service recipients, colleagues, partners and the communities and citizens of Angus.
- 15 In January 2016 the Scottish Government published the National Improvement Framework (NIF) for Scottish Education. The Framework sets out the current national priorities for improvement in Scottish education namely:
 - improvement in attainment, specifically in reading, writing and numeracy
 - closing the attainment gap between the most and least disadvantaged
 - improvement in children and young people's health and wellbeing
 - improvement in sustained school leaver destinations for all young people.
- 16 The four priorities in the NIF align closely with the Children and Learning Directorate's commitment to improve within our statement of ambition.

Preparing this plan

- 17 We have identified three priorities for the period covered by this plan. These are:
 - Raise the achievement and attainment of all our children and young people
 - Provide positive, nurturing and inclusive environments to support learning and development
 - Ensure that our ambitions and our resources are fully aligned
- 18 We have explained why these priorities are important to us at this time.
- 19 Within each priority there are some more specific objectives. For each of these we have described:
 - what success will look like
 - what targets will we set for improvement
 - what actions will we take to improve and
 - what risks we face in this area.
- 20 There are some Local Government Benchmarking Framework (LGBF) indicators and some risks that do not align with our three priorities. These items have been included in appendices. This will ensure that we report publicly on the LGBF and that we have a comprehensive risk register for the directorate.

- 21 Our key focus is on improving outcomes and life chances for our children and young people. This is what we mean in Angus when we state that we wish to raise the attainment and achievement of all. This does not mean just focusing narrowly on exam results, but instead looking at achievement in its widest sense. As such, success is measured in attainment across all areas of the curriculum and through our schools' ability to demonstrate learners' achievements in relation to skills and attributes. Our learners are personally and socially adept and have achieved a range of skills and attributes through a wide range of activities. As they move through their learning pathways they take increasing responsibility for ensuring they continue to add value to their achievements.
- 22 Our south points which connect to this overarching priority are:
 - We will increase the number of children positively engaged with school
 - We will surpass the national attainment targets set for the Broad General Education (BGE)
 - We will increase the number of our young people who leave school for sustained, positive destinations.
- 23 We want to ensure that all our children and young people have the same opportunities to succeed. This means ensuring that every child has the highest standards in literacy and numeracy and the right range of skills, qualifications and achievement to allow them to succeed. We want to support them to develop the skills they need to get on in the world. By improving educational outcomes for all our children and young people we can support them to become confident, successful, responsible and effective learners prepared with the knowledge, skills and attributes required to be successful adults.

Objective 1 We will increase the number of children and young people who are positively engaged with school

What will success look like?

24 Positive engagement with school provides the foundation for ensuring the achievement of our children and young people. At the core of this is the need to focus on the development of productive and meaningful student and teacher relationships. Our schools understand the importance of relationships in supporting effective learning experiences. Teachers also know and regularly use approaches to learning and teaching that are most likely to engage, motivate and challenge our children and young people. This includes clear instruction, active learning and targeting feedback to ensure that students know how they are doing, what they need to do next and how they are going to get there. Successful schools encourage attendance, take early action to prevent non-attendance and promote aspects of a growth mind-set where the value of effort is recognised and mistakes help shape the learning journey. Success requires a focus on excellence and equity. Positive engagement allows children to make progress in their learning, taking ownership of it and understanding their next steps. An optimal level of challenge in the learning process supports children and young people to achieve success and have the knowledge, skills and support to make positive choices.

Targets

Table 1 – targets for improving the % of children and young people engaged with school and for levels of parental satisfaction with our schools.

| | 2016/17 | 2017/18 | 2018/19 |
|---|---------|---------|---------|
| Increase the percentage of children and young people reported to be positively engaged with school from 60% (baseline 2016) to 80% by 2018, as measured by Dartington Research.* | n/a | n/a | 80% |
| % of Parents satisfied with local schools as measured by Education Scotland Inspection Surveys | 75% | 80% | 80% |

*The intention will be to repeat the Dartington research in 2018/19. However, in the meantime a basket of associated measures will be subject to on-going monitoring as indicators of improved engagement with school. This will include attendance and exclusion rates (including for vulnerable children and young people); anti - bullying and violence and aggression incidents and the outcomes from the annual pupil, parent and staff survey.

Risks identified

- Lack of engagement with school
- Inability to meet additional support needs locally
- Poor recruitment and retention of teachers leading to a lack of flexibility to ensure appropriate teacher implementation and moderation of Curriculum Standards.

Raise the achievement and attainment of all our children and young people

Objective 2 We will surpass the national attainment targets set out for the broad general education to ensure our children and young people meet and succeed at every curriculum level

What will success look like?

26 Almost all children and young people in Angus shall achieve the appropriate curriculum levels as they progress through the broad general education from preschool to S3. Teachers will confidently assess all pupils in relation to their class / course work and report to parents on an annual basis their professional judgments as to whether each individual child / young person is secure at a level, on target to be secure at a level or if they require additional support with their learning.

Raise the achievement and attainment of all our children and young people

Objective 3 We will increase the number of our young people who leave for sustained positive destinations

What will success look like?

27 Our ambition is that all our young people move onto a positive destination on leaving school. To achieve this, we will provide flexible learning pathways that will increase the opportunities for young people in school, leading to improved staying on rates. We will strive to achieve an improvement in our leavers' average tariff score, overtaking the performance of our virtual comparator. For those young people who are at risk of missing out on a positive destination, we will target our resources to ensure that every appropriate opportunity is made available and that young people are supported to make the most of these opportunities.

| Year on year improvement in the percentage of young people achieving 3 or more qualifications at SCQF level 6 in S5 | 35% | 36.7% | 38.4% |

Risks identified

- Removal of Scottish Government funding to support Opportunities for All programme
- Failure of business and other partners to engage long term with schools

- An over-arching priority for Directorate, and indeed a statutory duty, is to safeguard and promote the welfare of children and young people. What a child is achieving, or how healthy they are, may be linked to how safe, or respected, or included they feel. Recognising when a child needs support and being able to respond when a parent asks about *any* aspect of their child's wellbeing is important if we are to offer appropriate and effective support at the right time.
- 29 Fundamental to improving outcomes and life chances for all our children and young people is ensuring they are provided with positive, nurturing and inclusive environments that support their learning and development. Research clearly shows that a child's early years experiences, and even pre-birth, is a key part in determining their future outcomes. Positive early years' experiences give children the best start in life and as such it is essential that we support children and their families during the crucial stages from pre-birth to 8 years.
- 30 The Scottish Government are clear in their expectations that services for young children need to:
 - Be child-centred, acknowledge children's views and actively involve children in meaningful ways in everyday decisions in the Early Learning and Childcare (ELCC) setting.
 - Offer a nurturing and caring environment.
 - Provide appropriate spaces to play and learn with a range of possibilities for children to develop their present and future potential.
 - Be responsive to children's changeable interests and demands.

Scottish Government (2014) Building the Ambition , National Practice Guidance on Early Learning and Childcare

- 31 Where it is not possible or safe for child or young person to remain living at home the priority is to support them within an alternative family setting, either kinship care where possible or foster care, or within a residential care setting where this is necessary to meet their assessed needs. Where a child or young person requires statutory measures of care the local authority and partner agencies have specific corporate parenting responsibilities including the additional statutory responsibility to promote the wellbeing of looked after children and care leavers to enable them to achieve the best outcomes.
- 32 Where a child is vulnerable through either difficulties within the home environment, specific learning needs or family issues, we will work with a range of professionals within the child's locality to ensure that we best meet the needs of the child and family. In so doing, we will strive to ensure that every child in Angus has a positive start in life; a positive learning experience; and feels safe and secure within their home environment.

Objective 4 We will increase the number of our children who meet their developmental milestones before they start school

What will success look like?

- Children have access to positive early years' experiences that promote their social and emotional development,
- Children and young people, including Looked After Children and Children with Additional Support Needs (ASN) are well supported within their ELCC setting.
- Parents are able to and feel confident in accessing support as and when required
- There is an improved understanding of child and young people's developmental stages by professionals and parents

How will we know?

Risks identified

- Insufficient physical resources to meet expansion of service
- Failure to ensure access to ensure that all children have access to a teacher
- Poor uptake of Early Learning and Childcare provision

Objective 5 We will ensure that children and young people are protected and are supported to live within their own home or an alternative family setting where possible.

What will success look like?

- Children and young people are protected and supported to live within their home
- We are intervening early in children's lives to support them and their families when they need it
- We have reduced numbers of children requiring statutory measures of care
- We have increased the number of children and young people being supported to live at home or within an alternative family setting

Risks identified

- Failure to recruit and support sufficient fosters carer
- We are unable to provide early intervention and preventative services.

Objective 6 We will reduce the number of our young people engaged in substance misuse

What will success look like?

- Fewer children and young people are reporting using substances.
- Young people in Angus are aware of the dangers associated with substance misuse and take informed choices about their use.
- Young people with substance misuse problems are able to access appropriate supports when they need them.
- There are supports in place for children and young people impacted on by parental substance misuse.

Risks identified

• Failure to prioritise early intervention and prevention work associated with substance misuse issues

- 33 We want to allocate our resources to agreed priorities, rather than on a rolling basis. We want to ensure that our resources are used efficiently and effectively to improve outcomes for the children and young people that we serve.
- 34 Our use of resources will be based on evidence. We will align our resources to our 'compass', and make conscious decisions to move resources to match emerging need.
- 35 We are beginning to classify our resources using three categories:
 - Universal services are available to all children and young people
 - Focussed services are about early intervention and prevention
 - Targeted services are when specific, individual needs occur.
- 36 We aim to move resources from targeted into universal and focussed. This will help is to get it right for every child and young person. (See diagram below.)
- 37 This is about changing the way we view our business over the medium term.

Objective 7 We will develop an outcome focussed approach to service planning and delivery

What will success look like?

38 We will develop a suite of plans that clearly align to our statement of ambition. Our plans must start from the basis of improving outcomes. We will have performance measures and quality systems in place to ensure that these plans are realised. We will report on this basis with confidence and clarity.

Between 2016-19 we will:

- prepare the first key plans to provide a secure foundation to work from;
- develop self-evaluation approaches throughout Children and Learning to identify areas of improvement and celebrate success;
- engage with our communities of interest to align expectations and;
- monitor our performance with rigour to track progress towards our ambitions.

Profile

- 40 The Children and Learning Directorate focuses on services in education and social work for the children and young people of Angus. There are three service areas within the Children and Learning Directorate. These are:
 - Schools and learning
 - Services to children and young people
 - Quality and performance

Schools and Learning

- 41 There are 53 primary schools and 8 secondary schools in Angus. These schools vary enormously in size: the smallest primary has under 10 primary pupils, and the largest over 400 primary pupils. The secondary schools vary in size from 500 pupils to approximately 1100. There is an expectation, however, that the quality of education will be uniformly high across all schools affecting all 8649 primary pupils and 6410 secondary pupils (as at September 2015).
- 42 Work within this service focuses on:
 - > Curriculum, assessment and qualifications
 - > Teacher staffing
 - Pupil services
 - Schools leadership, standards and improvement
 - Devolved School Management
- 43 What the public can expect:
 - We will deliver a high quality, inclusive curriculum which meets the needs of all children and young people
 - We will provide accessible information about school curriculum, pupil attainment, achievement and attendance to pupils, parents and staff through printed and electronic methods
 - We will provide 2 hours of structured physical education per week for P1 to \$4 pupils
 - We will configure class sizes to conform with Scottish Government regulations *
 - We will ensure the adult/pupil ratio in all school meets legislative requirements **
 - We will meet Health & Safety regulations and ensure all schools are fit for purpose (Estate Plans)

*-Maximum class sizes P1=25 P2=30 P3=30 P4-7=33 Composite class=25

**-adult/pupil ratios varies according to the school roll.

Services to Children and Young People

- 44 Services to support, care and protect children and young people are delivered within a framework of statutory duties and are required to meet national standards. Where possible, services are delivered in partnership with a range of stakeholders to promote health, wellbeing and protection.
- 45 48 of our primary schools have nursery classes with an intake of 1,315.
- 46 Parents do not have a legal responsibility to send their children to nursery, but the Council has an obligation to make available early learning and child care for 3 and 4 year-olds and eligible 2 year-olds. In September 2015, 92% of Angus' three and four year olds were accessing funded early learning and childcare. Angus offers four admission dates per year ensuring that children can access their funded place in the term after their third birthday. We also provide funded places for eligible two year olds and currently have approximately 40% of our eligible 2 year olds accessing this provision. In discharging these obligations, we work with partner providers – voluntary and private. There are currently 34 partner providers offering pre-school places in Angus, in addition to our own 48 nursery classes.
- 47 The Directorate supports more than 800 children and young people in need.
- 48 This service covers a range of statutory and non-statutory services which include:
 - Early learning and Child Care
 - Supporting children and families including statutory responsibilities for Looked After Children
 - Residential care and fostering
 - > Children with additional support needs and children with disabilities
 - Child protection services
 - Educational psychology services
 - Criminal Justice Social Work Services including youth justice
- 49 What the public can expect:
 - We will ensure our education provision is inclusive and appropriate for every child
 - > No child will be excluded from receiving an education
 - We will complete child protection investigations assessments within 7 days of referral
 - We will visit children on the child protection register at a minimum of every 2 weeks within their home setting
 - We will visit people receiving support from the children and family service on a minimum 4-weekly basis
 - We will formally review the care of Looked After Children on a 6-monthly basis
 - We will review foster carers on an annual basis

Profile

- We will formally review the care of children subject to a new supervision requirement within 3 months of their supervision requirement being imposed
- We will offer 600 hours of early learning and child care per year to all 3 and 4 year-olds and eligible 2 year-olds
- > We will review co-ordinated Support Plans annually
- We will provide Criminal Justice Services in line with National Objectives and Standards

Quality and Performance

- 50 This service has overarching responsibility for quality and performance across the Directorate and includes a key focus on:
 - Quality assurance, quality improvement and service planning
 - > Performance management, including key business/information systems
 - Inspection, scrutiny and best value
 - > Management of Directorate risk and continuity planning
 - Complaints monitoring and investigation (stage 2)
 - Support for public protection activities
 - Contracting and commissioning of external providers
 - Professional development of staff, including training and registration requirements
 - Corporate governance
 - School estate and physical resources
