

AGENDA ITEM NO. 5

REPORT NO IJB 56/18

ANGUS HEALTH AND SOCIAL CARE

INTEGRATION JOINT BOARD – 29 AUGUST 2018

FINANCE REPORT

REPORT BY ALEXANDER BERRY, CHIEF FINANCE OFFICER

ABSTRACT

This report provides an update to the Angus Integration Joint Board (IJB) regarding the financial position of Angus IJB including financial projections, updates regarding savings progress and financial risks.

1. **RECOMMENDATIONS**

It is recommended that the Integration Joint Board:-

- (i) notes the overall projected financial position of Angus IJB for 2018/19;
- (ii) notes progress with 2018/19 savings delivery; and
- (iii) notes the risks documented in the Financial Risk Assessment.

2. FINANCIAL MONITORING

The report describes the most recent financial monitoring information for Angus IJB. It is structured in the following way:-

- a) NHS directed services (section 3).
- b) Angus Council directed services (section 4).
- c) Summary (section 5).

It is important to recall that the Angus IJB Integration Scheme set out that for 2016/17 and 2017/18, should the IJB ultimately overspend then that overspend would be attributed back to the Partner organisation in which the overspend was incurred. This agreement has changed for 2018/19 such that should the IJB ultimately overspend, then that overspend will be apportioned to Partner organisations in proportion to the spending directions to each party. This change is referenced within this report.

Information contained within this report reflects early estimates for the whole of 2018/19 and consequently a number of further reviews of projections and underlying budgets are ongoing which may lead to future adjustments in information.

The IJB's detailed projected financial position for 2018/19 is set out in Appendix 1. This shows that the overall projected financial position for Angus IJB for year to March 2019 is of a small underspend of c£40k or approximately breakeven. This is after material Prescribing overspends have been offset by other health underspends and underspends within Adult Services.

3. NHS DIRECTED SERVICES – CURRENT POSITION

3.1 Local Hospital and Community Health Services

 For 2018/19 the vast majority of services are currently projecting underspends or near breakeven. This reflects good progress made in both 2017/18 and early 2018/19 with delivery of savings and cost containment (including specifically good progress with position within Community Nursing Services).

- This will continue to be monitored going forward.
- Beyond service budgets, the IJB is forecasting an underspend within Centrally Managed Budgets reflecting the above noted progress with savings (as per the IJB's financial plan), unplanned short term underspends regarding the final stages of the implementation of Enhanced Community Support, and short term underspends regarding Partnership Funds.
- Collectively these factors contribute to the forecast underspend of c£2m re Local Hospital and Community Health Services. This is consistent with the IJB's overall financial plan with underspends on this group of services/budgets intended to offset overspends elsewhere (e.g. Prescribing).

Services Hosted in Angus on Behalf of Tayside IJBs

- Due to pressures that remain within these services, particularly Out of Hours, progress with delivery of savings proposals has been limited since the inception of the IJB. On that basis there remains a projected shortfall of c£140k re unmet savings.
- Significant overspends are now projected re Tayside Out of Hours Services. Original plans to re-model services have only been partially advanced to date. This remodelling, alongside service funding streams and underlying costs, will be reviewed further in the near future with information shared with other Tayside IJBs.
- The combined effect of the above, despite some off-setting underspends, is one of an over spend of c£141k for the Angus share of these costs.

Services Hosted Elsewhere on Behalf of Angus IJB

- As the Board will be aware a number of devolved services are managed by other IJBs on behalf of Angus IJB. The projected year-end position for these services is an overspend of c£550k slightly higher than expectations. The details are set out in Appendix 2.
- Main contributors to this over-spending position are pressures within Adult Mental Health Services and Prisoner Healthcare (overseen via Perth IJB) and pressures within Palliative Care, Brain Injury and Psychotherapy (overseen by Dundee IJB). As with Angus IJB, both Dundee and Perth IJBs have unmet savings associated with hosted services. These pressures are partially offset by a range of service underspends.

Family Health Service (FHS) Prescribing

- Considerable work continues at both a Tayside and local level regarding Prescribing. This is the subject of regular separate reports to the IJB and has also been reported to NHS Tayside Performance and Resources Committee.
- While Angus remains an outlier in terms of Prescribing spend per weighted populations, the scale of the variance to national averages has reduced from over c14% at times during 2017/18 to nearer 12% when 3-month averages are considered.
- The above progress partly reflects good work to develop long term clinical buy-in for changing the way we prescribe, the considerable work being progressed by local General Practices, and those involved locally with Prescribing and the effect of efforts co-ordinated through the Tayside Prescribing Management Group.
- The IJB will continue to progress Prescribing action plans in line with information shared with the IJB previously and will also progress actions reflecting other current developments. Should further material progress be made then, from a financial planning perspective, this will start to make a difference in the IJB's reported financial position in 2018/19 compared to previous years.
- Due to the stage in the financial year, projections regarding Prescribing budgets are high level at this stage with an overspend of £2.1m projected compared to last year's underlying overspend of c£3.3m. This projection in particular will be subject to much further review, is subject to ongoing risks regarding price and tariff changes and is dependent on progress with prescribing initiatives locally and regionally.

General Medical Services and Family Health Services

- As yet final 2018/19 budget allocations have not yet been confirmed by the Scottish Government for General Medical Services (GMS). In advance of that confirmation, early projections suggest budgetary pressures this year of c£74k.
- Projected overspends are partially attributable to provision of GMS in the likes of Brechin where NHS Tayside is directly managing GMS services.
- Longer term risks regarding the challenges re General Practitioner recruitment, the uncertainty that is prevailing in the period around the introduction of the new GMS contract and the underlying growth in some Enhanced Service and Premises costs all remain.
- Budgets associated with other Family Health Services (FHS) are projected to roughly breakeven at the year end.

Large Hospital Services

- The Board will recall this is a budget that is devolved to the Partnership for Strategic Planning purposes but is operationally managed by the Acute Sector of NHS Tayside.
- As at 2018/19 this budget is initially quantified at £8.946m to reflect the direct costs associated with these services. The projected year end financial position is presented as break even in advance of further development of associated financial reporting.
- As noted previously the Scottish Government are very keen that the Large Hospital Services issue is further developed. While this presents opportunities to the IJB in terms of developing the overall strategic direction regarding Large Hospital Services, there are also risks associated with the provision of Acute Sector capacity.

Overall Position Regarding NHS Directed Resources

• The overall reported projected 2018/19 position based on early information suggests an over spend of c£700k. This will be affected by multiple risks, subject to much further refinement and is likely to vary in the early months of the financial year. The projected overspend reflects a series of offsetting variances including continued overspends re Prescribing and services hosted elsewhere being partially offset by underspends locally.

4. ANGUS COUNCIL DIRECTED SERVICES (ADULT SERVICES) – CURRENT POSITION

4.1 Adult Services

- The IJB is currently projecting a year end underspend re Adult Services. Within this there are offsetting variances. There are overspends within Learning Disabilities (subject to the overall Learning Disability Review) and overspends within Older People's Services.
- The Older People's Services overspend is partly attributable to demographic growth issues. There are funds set aside within the IJB to offset this growth and adjustments will be amended to reflect this growth once it has been formally quantified by the service with Finance support.
- There remain a number of one-off underspends (e.g. associated with the implementation of the Living Wage for Sleepovers due for resolution in Autumn 2018) and regarding the resettlement of patients from inpatient hospital care.
- With the benefit of longer term information, it now appears the IJB has had some success in containing levels of demographic growth – albeit there has been an impact in recent months. This remains a major risk and it will be monitored closely going forward and will feature as part of financial assessments made during the next iterations of longer term financial plans.

Overall Position Regarding Angus Council Directed Resources

• The overall projected 2018/19 position based on early information suggests an underspend of c£760k. This will be affected by multiple risks, subject to much further refinement and is likely to vary in the early months of the financial year.

5. SUMMARY IJB POSITION

From the above it can be seen that the IJB is forecasting an overspend regarding NHS Directed Services of c£720, slightly reduced from 2018/19, and is projecting an underspend of c£760k regarding Angus Council Directed Services. All information is very preliminary at this stage, subject to multiple risks including, for example, Prescribing, and the financial position is supported by short term benefits. Overall the suggestion is a potential year end underspend of c£40k or approximately breakeven.

While NHS Tayside budgets have yet to be finally ratified for 2018/19, changes in the Integration Scheme need to be reflected in the way the IJB's Partner's report their financial relationship with the IJB.

At the moment as the IJB is forecasting an approximately breakeven position, so the impact of the IJB's finances within both Angus Council and NHS Tayside would be projected as breakeven. Per the Integration Scheme, the IJB would retain any projected year end underspend within IJB reserves.

6. PROGRESS WITH 2018/19 SAVINGS DELIVERY

6.1 On a regular basis information will be provide to the IJB regarding progress with delivery of planned 2018/19 savings. This initially references back to the IJB's financial plan as described in report IJB 25/18. The table below focuses on Local Hospital and Community Health and Adult Services.

Savings Delivery Progress at August 2018

The above demonstrates that good progress has been and is being made across a range of interventions. Some interventions, generally those that were assumed to deliver from mid 2018/19, still require further development, are inherently more risky and may require additional management intervention to progress them forward. The IJB's Executive Management Team will review progress with these initiatives.

While the above suggests some parts of the IJB's plan may under-deliver in-year, there may be offsetting factors elsewhere. The IJB's Executive Management Team will pursue compensating measures as required to deliver an overall balanced 2018/19 financial position - for example the level of non-recurring NHS savings may be greater than expected and at 4.1 above it was noted that the IJB may have been able to contain the impact of demographic growth on some services.

In addition to the above, it is important to note that there are and may be further offsetting pressures elsewhere in the IJB. At this stage it is worth noting that costs associated with the Carers Act have still to be fully clarified, as has the final impact of pay inflation across both Angus Council and NHS Tayside employees. Risks regarding future demographic growth and workforce issues will continue to be features of the IJB's financial risks going forward.

The above reflects progress with 2018/19 savings delivery. The Board should note that 2018/19 budget discussions with NHS Tayside are still subject to finalisation, albeit a reasonable set of working assumptions are available. As such, the final approval of devolved 2018/19 budgets to the IJB (including resources devolved from NHS Tayside and Angus Council) will require to happen at the October 2018 Board meeting. Ratification of formal 'directions' to NHS Tayside and Angus Council will follow once devolved budgets have been finalised.

7. FINANCIAL RISK ASSESSMENT

Appendix 3 sets out ongoing or emerging financial risks for the IJB. This risk register includes more detail than is held at an IJB level for Angus IJB's financial risks. Many of the risks are IJB-wide risks including examples such as future funding levels and the risks regarding delivery of savings. At this stage of the financial cycle, aside from important issues such as Prescribing and Workforce, the preparation of longer term budgets consistent with the IJB's future Strategic Plan is a further area of concern.

Angus IJB formally monitors its corporate risks through the Angus Clinical, Care and Professional Governance R2 forum. The financial risk is described as 'Effective Financial Management'. The risk measure is recorded routinely and the summarised performance is shown below indicating the ongoing 'red' financial risks.

RISK TITLE	RISK	BASELINE RISK	October	January	March	May	July
	OWNER	EXPOSURE	2017	2018	2018	2018	2018
Effective Financial Management	Chief Officer	25 (5x5) RED	25 (5x5) RED	25 (5x5) RED	25 (5x5) RED	25 (5x5) RED	25 (5x5) RED

There has been an ongoing risk regarding Finance Support Structures (the Finance team support provided by both NHS Tayside and Angus Council). Within NHS Tayside that team is currently affected by a degree of staff turnover that will cause a loss of continuity for a number of months. Within Angus Council a similar issue is currently affecting the support team with staff turnover linked to the final stages of the implementation of the Finance Structure Review. There will be an impact of these circumstances on the IJB's financial management.

Noting the issues regarding future workforce planning (i.e. the age profile of the IJB's workforce), in order to more pro-actively address prospective recruitment issues, under the devolved authority of the Chief Officer it is proposed to set up a small fund to allow for the early recruitment of suitable staff when they become available (e.g. at points after graduations), even if this is in advance of assumed anticipated vacancies. The risks of additional costs associated with early recruitment will be considered on a case by case basis, contained where possible (e.g. through reducing supplementary staffing costs) and supported if required, by this new fund.

8. SUMMARY

The main financial reporting issues in this report are set out in sections 3, 4 and 5. The overall projected financial position for 2018/19, based on very early information with many ongoing risks, is of an approximately breakeven position. This reflects an underspend for Adult Services, in year underspends on local Hospital and Community Health Services, all offset by overspends on hosted services and, in particular, Prescribing.

The overall financial position of the IJB does have a material impact on the way Angus IJB provides services in future. By making ongoing progress with delivery of efficiencies and cost reduction programmes alongside service redesign and modernisation, the IJB will be most able to deliver the services it requires to deliver to the local population on a sustainable basis.

APPENDIX 3 – ANGUS HEALTH AND SOCIAL CARE PARTNERSHIP FINANCIAL RISK REGISTER

	Risk Ass	essment			
Risks – Revenue	Likelihood Impact (£k)		Risk Management/Comment		
Savings Targets					
A small number of IJB savings programmes (including some associated with Hosted Services – specifically Out of Hours - are	Medium	c£0.5m (recurring)	IJB continues to progress savings plans through Executive Management Team.		
running behind schedule.					
Cost Pressures					
The IJB's Prescribing budget remains under	High	c£2.0m-	Prescribing plans being taken forward through		
ongoing pressure with the IJB incurring costs		£3.0m	combination of local working and the NHST-		
per weighted patient above the national averages.		(recurring)	wide Prescribing Management Group. See report to June 2018 IJB. IJB augmenting local Prescribing budgets.		
Review of Nurse Staffing Levels by NHST Nursing Directorate may recommend increased staffing with consequent exposure to increased costs on basis of existing service configuration. Reviews of Safe Staffing issues re Health and Care (Staffing) (Scotland) Act may have a longer term impact on social care services.	Low	Not known	Issues remain under consideration.		
The IJB has a material reliance on (NHS) supplementary staffing. Initially this type of cost is contained within budgets. This is indicative of overall risks associated with Workforce Planning across the whole Partnership.	Increasing	Not quantifie d	An initial reliance on additional hours and bank staff can generally be contained within budgets. If that develops into a need to utilise agency or overtime staffing then there is a material additional cost impact.		
For 2019/19 IJB's Large Hospital Resources will be reported at breakeven. In the longer term this will be an increasing financial risk for the IJB.	Increasing	Not known	Potential risks from 2018/19 noting Scottish Government intentions.		
The IJB's Adult Services are likely to see significant underlying growth in demand and consequently costs. This is mainly as a result of demographic pressures but may also reflect legislative changes such as the introduction of the Carers Act.	High	c£1.0m (Estimate d Recurring)	The IJB continues to explore permanent resolution to future increased commitments. The IJB will consider the costs of the implementation of the Carers Act. This is a complex issue and one that is still developing. Estimates of the impact of these costs are allowed for in financial plans.		
The IJB's Adult Services are likely to see	High	c£2.0m	The IJB will work at a local and national level to		
significant inflation-type pressures in 2018/19		(Estimate	manage these pressures appropriately. Where		
and beyond reflecting both the ongoing impact of the Living Wage but also issues		d Recurring	necessary mitigating action may be required. Estimates of the impact of these costs are		
associated with the current National Care)	allowed for in financial plans.		
Home Contract.					
Other (including Funding)					
2018/19 Budget Settlements	Reducing	Not known	Angus IJB continues to be in discussion with NHS Tayside regarding 2018/19 budget settlements. Angus IJB is directly affected by the financial constraints that effect both NHS Tayside and Angus Council and there is a significant risk those financial constraints will have a knock on impact on Angus IJB.		
Resolution of Devolved Budgets to the IJB	Medium	Not	Some issues remain unresolved.		
(current or emerging issues)		known (2018/19)	NHS Tayside may consider the devolution of NHS funding to support Complex Care to IJBs. Angus currently consumes a high proportion of the Tayside funding for Complex Care.		
Finance Support Structure	High	N/A	CFO continues to work with both Angus Council		
			and NHS Tayside to ensure required support in		
			place but currently there are areas of risk.
