June 2019

LOCAL CODE OF CORPORATE GOVERNANCE

Introduction

Angus Council is committed to achieving good standards of corporate governance. The Local Code of Corporate Governance describes how we intend to achieve this.

The Local Code was first adopted in 2002 and has been regularly reviewed and updated. In developing the current Local Code, we have considered best practice and guidance, in particular the CIPFA/SOLACE Framework *Delivering Good Governance in Local Government* published in April 2016 and the accompanying Scottish guidance notes published in November 2016. The overall aim of the Framework is to ensure that:

- resources are directed in accordance with agreed policy and according to priorities
- there is sound and inclusive decision making
- there is clear accountability for the use of those resources in order to achieve desired outcomes for service users and communities.

Delivering Good Governance

Governance refers to the arrangements put in place to ensure that the intended outcomes for stakeholders are defined and achieved.

Delivering Good Governance sets out seven core principles for good governance:

- A. Behaving with integrity, demonstrating strong commitment to ethical values, and respecting the rule of law
- B. Ensuring openness and comprehensive stakeholder engagement
- C. Defining outcomes in terms of sustainable economic, social and environmental benefits
- D. Determining the interventions necessary to optimise the achievement of the intended outcomes
- E. Developing the entity's capacity, including the capability of its leadership and the individuals within it
- F. Managing risks and performance through robust internal control and strong public financial management
- G. Implementing good practices in transparency, reporting and audit, to deliver effective accountability

The information on pages 3 to 8 sets out the key policies, procedures and structures which demonstrate Angus Council's compliance with these core principles.

Annual Review

Compliance with the seven core principles for good governance will be assessed on an annual basis by the Corporate Governance Officers Group (CGOG) on behalf of the Chief Executive. CGOG members are Director of Strategic Policy, Transformation & Public Sector Reform (Chair), Director of Finance, Director of Legal & Democratic Services, Service Leader Governance & Change, Manager Governance Risk & Scrutiny and Manager Support Services Schools & Learning. Angus Health & Social Care Partnership have been invited to join the group. The Service Leader Internal Audit attends in an advisory capacity.

The results of the CGOG assessment will be reported to the Council's Corporate Leadership Team and the Scrutiny & Audit Committee. The report will incorporate recommendations for additions and/or improvements to the Council's governance arrangements, to reflect any changes in the way in which the council does business or new legislation.

CGOG's assessment of compliance will be reflected in an Annual Governance Statement which will be submitted to the June meeting of the Scrutiny & Audit Committee. The statement will be signed by the Leader of the Council and the Chief Executive for inclusion in the council's annual accounts.

The Annual Governance Statement will also be informed by the Service Leader Internal Audit's independent review of the Council's risk management processes, systems of internal control and corporate governance processes.
