

Explore Scotland's Undiscovered Coast

ANGUS COASTAL FESTIVAL

7-17 September 2018

PROGRAMME
OF EVENTS

Welcome

If you need an excuse to explore one of Scotland's hidden corners, to discover the county's rich natural history, explore golden beaches, rock pools, wide expanses of sand dunes and flower-strewn cliffs, then please join our Angus Coastal Festival events between 7th and 17th September!

Angus is famous for its abundant wildlife – puffins and Small Blue butterflies in the summer, migrant birds in the autumn, roaming whales and dolphins, thrift and kidney vetch. Its diversity is unparalleled on the North Sea coast. There are few crowds, the weather can be mild, the wildlife is sublime and the places to explore are outstanding.

Our very first Angus Coastal Festival will highlight some of the hidden – and not so hidden – corners, encouraging you to look deeper and take home some special memories, whether your home is nearby or many miles away. Everyone is welcome to join in the events, from spotting wildlife with youngsters, enjoying a guided cycle ride, joining the beach cleans being organised by local communities all-round the coast, listening to a myriad of talks or enjoying the exhibitions.

Friday 7 September

FESTIVAL LAUNCH EVENT

Making Homes for Butterflies: Enhancing Angus Coastal Habitats

Join the Tayside Biodiversity Partnership and Butterfly Conservation (Scotland) in sowing kidney vetch seeds to help our rare small blue butterflies.

- Time:** 10.30am
Location: Links House, Carnoustie Golf Links, DD7 7JF
