5 October 2014

Dear Karen Maillie

**Application for Review – e-Gen Partners Ltd – field 800M North of
Cotton of Pitkenedy farm, Cotton of Pitkenedy, Forfar
Application No 13/00290/FULL – DMRC -11-14**

Thank you for informing me about the application for a review regarding the refusal of the above plan.

Naturally we hope that the council will uphold their decision to reject this plan for the reasons stated in the refusal notice.

Our situation regarding this plan has not changed. I hope you will refer to my previous letters and emails of objection for details of the 'major negative impact' this plan will have on our lives, our home and our landscape.

I still have concerns that some council members may not be fully aware of the impact this plan will have on the local landscape.

As far as I'm aware the plan still offers no information regarding the view of the site from the north. No photomontage has been offered from the south side of Angus Hill, between the B9134 and Melgund Castle. I believe this aspect of the landscape would be greatly affected; particularly the skyline and the historical/pastoral nature of the area.

Now that there are few, if any, uninterrupted skylines in our county we need to protect what little remains.

As the above plan goes against many of the clauses set out in the Angus Plan it is my hope that the refusal will be upheld.

Regards

Mrs E Lashly
