08/00007	Strathmartine Hospital	08.01.2008	Deterioration in condition of listed building.	Site visit by Members of the Committee held on 16 August 2010. The recommendations of Reports 653/10 and 219/11 were agreed by the Development Standards Committee at the meetings on 31 August 2010 and 8 March 2011 respectively. Reports 640/11 and 545/12 were agreed by Committee on 20 September 2011 and 18 September 2012 respectively.	Following resolution of Council to approve application 13/00268/EIAM (for the redevelopment of the hospital) at its meetings of 18 December 2014 and 12 February 2015, the application was notified to and subsequently called-in for determination by Scottish Ministers. On 17 September 2015 Scottish Ministers issued a notification of intention to approve the application. Report No 395/15, presented to Committee on 06 October 2015 provided details of the decision. Work is progressing with the Section 75 agreement and the other applications will be determined in due course; with a separate report for determination of the Listed Building Consent application (13/00367/LBC) presented to Committee at this meeting.
12/00155	Site Due East of The Knowe Kinnaber Road Hillside	19.02.2013	Unauthorised use of site for siting of caravans.	An Enforcement Notice was served on 18 April 2013 requiring the removal of the caravans. The matter was reported to the Procurator Fiscal however the Fiscal has advised that the case will no longer be progressed. Committee has instructed direct action to ensure removal of the caravans from the site and to achieve compliance with the Enforcement Notice.	Planning Officers met with Angus Council Travellers Liaison Officer to discuss best course of action in relation to establishing contact with site owners. Following this, correspondence was sent to the owners/ occupiers of the site and a charity representative advising that the Enforcement Notice had not been complied with and the caravans were to be removed from the site. A meeting was held on 22 October 2015 between the occupants/owners and the Planning Service to discuss matters. The occupants do not intend to comply with the Notice and it is proposed to proceed with formal enforcement action to remove the caravans. Quotations are being sought through a procurement process for the cost of removal of the caravans.

12/00050	Joinery Workshop and Yard Douglstown By Forfar	27.08.2013	Biomass briquette production plant operating without the benefit of planning permission.	<p>A revised CMS provided by the Developer and Engineering Agent was reviewed in conjunction with SEPA and SNH and considered to be competent. The Developer and Engineering Agent have been made aware of this and advised that work may now commence in accordance with the revised CMS.</p> <p>Due to environmental constraints, the developer has until the end of September 2015 to complete the works in the Paddock area of the site.</p> <p>A site visit by Planning Officers on 30 September 2015 verified that works appear to have been undertaken at the site in accordance with Enforcement Notices within required time limit.</p>	<p>A site visit was undertaken on 5 November 2015 with Angus Council Architectural Technicians using surveying equipment to accurately measure ground levels of the Paddock area of the site.</p> <p>The findings of the ground level survey undertaken by Angus Council Architectural Technicians showed that the developer has not achieved the site levels required by the Enforcement Notices and they have, therefore, failed to comply with the Notices.</p> <p>Although in breach of the Enforcement Notices, the Department has considered that, as an alternative to pursuing legal action against the developer at this time, the submission of a revised Construction Method Statement (CMS) to enable further works to be undertaken to lower ground levels at the site is a proportionate approach with an aim to resolving the matter.</p> <p>The deadline for submission of the CMS is 03 February 2016, which will then allow remedial works to be undertaken by the developer within an environmentally acceptable timeframe identified in the CMS.</p>
