Comments Received

ENVIRONMENTAL AND CONSUMER PROTECTION, COMMUNITIES submitted a Memorandum dated 18 March 2015.

The proposal is to incorporate an external seating area to the front of the premises as a drinking/eating facility during core hours. This division has concerns that due to the proximity of residential properties to this facility that its use during the entire period of the core hours could give rise to noise complaints. I therefore strongly recommend that consideration should be given to limiting the hours of use of this facility to no later than 21.00. No music should be provided in this area and its use during live music events (if any) at the premises should be restricted.
