12/00155	Site Due East of The Knowe Kinnaber Road Hillside	19.02.2013	Unauthorised use of site for siting of caravans.	<p>An Enforcement Notice was served on 18 April 2013 requiring the removal of the caravans.</p> <p>The matter was reported to the Procurator Fiscal however the Fiscal has advised that the case will no longer be progressed.</p> <p>Committee has instructed direct action to ensure removal of the caravans from the site and to achieve compliance with the Enforcement Notice.</p>	<p>Contact was established with the owners/occupiers of the site following discussion with the Angus Council's Travellers' Liaison Officer. It was confirmed in writing to the owners/occupiers that the Enforcement Notice has not been complied with. This was followed with a meeting on 22 October 2015; where the occupants advised that they do not intend to vacate the site.</p> <p>The Service is now proceeding with formal enforcement action to remove the caravans. The necessary services to undertake this action are now being procured – which has begun through initial advertising of the services sought. 12/00050	Joinery Workshop and Yard Douglstown By Forfar	27.08.2013	Biomass briquette production plant operating without the benefit of planning permission.	<p>A site visit was undertaken on 5 November 2015 with Angus Council Architectural Technicians using surveying equipment to accurately measure ground levels of the Paddock area of the site.</p> <p>The findings of the ground level survey undertaken by Angus Council Architectural Technicians showed that the developer has not achieved the site levels required by the Enforcement Notices. They have, therefore, failed to comply with the Notices.</p> <p>Although in breach of the Enforcement Notices, the Department has considered that, as an alternative to pursuing legal action against the developer at this time, the submission of a revised Construction Method Statement (CMS) to enable further works to be undertaken to lower ground levels at the site is a proportionate approach to resolve the matter.</p> <p>The deadline for submission of the CMS is 03 February 2016, which will then allow remedial works to be undertaken by the developer within an environmentally acceptable timeframe identified in the CMS.</p>	<p>Engineers working on behalf of the developer have disputed ground level recorded by Angus Council Architectural Technicians.</p> <p>A further site visit to record a second set of level readings for verification has been scheduled for 20 January 2016.</p>
