4. PROPOSALS

4.1 Following approval an application will be submitted to FiT Scotland for the site meeting the minimum criteria as a Centenary Field. The prime requirements are the site should be green space such as a park, recreation space or memorial garden containing a War Memorial.

4.2 The Council requires entering into a minute of agreement with FiT to dedicate the areas of ground on the attached map **Appendix (1)** to be dedicated as a Centenary Field in perpetuity. On completing the agreement Angus Council undertakes to use the site for recreational purposes only and not to sell, transfer, lease or otherwise dispose of it except with consent from FiT Scotland.

4.3 Ownership of the site will remain with Angus Council and FiT does not obtain any property rights.

4.4 The Council further commits to not erecting any buildings which could detrimentally affect the use of the site for recreational purposes but changing rooms, pavilions, kiosks and cafes will be permissible. Members should be aware this will restrict future use of the site for anything but recreation except with the consent of FiT.

4.5 The agreement does not permit future disposals including leases and any future applications from organisations or community groups would be subject to FiT approval. To address this any areas currently leased or with the potential to be leased in the future such as tennis courts or pavilions have been excluded from the area being nominated.

5. RISKS

A potential risk would be that a substantial area of ground could not be sold or developed without FiT consent. Although the agreement will stipulate that consent will not be unreasonably withheld seeking FiT approval for even minor works may be complicated and time consuming.

6. FINANCIAL IMPLICATIONS

All costs incurred can be met from existing revenue budgets.

7. CONSULTATION
