Proposal: Erection of Community Building, Rugby and Cricket Club - Re-Application

Case Officer: Damian Brennan

Customer Details

Name: Mr John McDonald

Address: 9 Redfield Road Montrose

Comment Details

Commenter Type: Member of Public

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: It is disappointing to see that these plans have been re-submitted. There were several comments/objections made to the original application. Most of these were with regard to the positioning of the clubhouse and the fact that the cricket playing section of the club had not been consulted. I see from the site plan that the position of the new clubhouse is no different from the previous application and that to accommodate this the cricket wicket would need to be moved. As with the previous application there has been no significant consultation with the cricket playing members of the club and certainly no agreement sought or reached on the movement of the cricket wicket.

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I am a fee paying club member of M. D. C. R. F.

A similar application was submitted last year without consultation with members in 2018

Yet another application has been submitted without consultation or notification to ALL club members.

I am disappointed that this has happened again

I therefore object.
