Chair – Angus Community Justice Partnership

*The Angus Health and Social Care Partnership directs and plans all adult health and social care services in Angus. Our vision is to place individuals and communities at the centre of our service planning and delivery in order to provide person-centred outcomes.*

*Our 2019–2022 Strategic Commissioning Plan outlines the vision and priorities for health and social care, as well as how services can develop to respond to the changing needs of individuals, families and communities. Priority 1 within our plan ‘Improving Health Wellbeing and Independence’, supports enablement and prevention and aligns closely with the objectives of rapid rehousing.*

*The introduction of rapid rehousing will require change in the health and social care landscape, and how current services can support the RRTP response to clients with complex or multiple needs being supported to reach and sustain settled housing outcomes. We recognise that close partnership working is fundamental to the successful implementation of rapid rehousing in Angus.*
