

ANGUS COUNCIL

17 DECEMBER 2020

ANGUSALIVE: RECOVERY PLANS

Reference is made to Report 272/20, considered by the Council at its meeting on 5 November 2020. That report provided an update in relation to ANGUSalive, including progress with the recovery plans to 19 October 2020.

The current temporary operating position to 27 November 2020 is detailed in the comprehensive table included in this appendix. This information reflects interim changes to the Services Specification to this date and will form the content of a formal change notice between the Council and ANGUSalive.

The main changes to the Sport & Leisure offer between 19 October and 27 November 2020 are described below. For the avoidance of doubt there are no changes to note within Countryside Adventure, Libraries and ACCESS Services, Museums, Galleries & Archives and Theatre, Halls & Venues.

An overview of future service developments in December and early January will be provided to members verbally at the Council meeting, assuming Angus remains in Tier 3 or lower.

Sport & Leisure

Angus moved into Tier 3 of the Protection Levels Framework from 6am on 13 November 2020. The restrictions for Sport & Exercise permit individual exercise only indoors, although there is an exemption for under-18s.

To ensure compliance with the guidance ANGUSalive has paused delivery of the charity's group exercise programme and all classes from 13 November 2020 were cancelled until further notice due to the county being placed under Tier 3 restrictions.

Group exercise makes a significant contribution to income generation within the sports facilities operated by ANGUSalive and has been one of the most popular activities since these venues began to reopen from 14 September 2020.

The financial impact of the suspension of group exercise on the charity has yet to be understood and will only start to become more apparent following the bActive Direct Debit (DD) run at the start of December 2020 to determine cancellations and membership freezes.

Under-18 club use of ANGUSalive sports facilities was still able to recommence from 16 November since there is an exemption for young people to exercise indoors in a group under Tier 3 restrictions. The charity's Adult & Community Physical Activity Lead, Community Sports Hub Coordinators and Football Development Coordinator have worked very closely with local clubs to support their return across a variety of sports.

The Junior Coaching dry side programme was relaunched on a reduced timetable from 23 November 2020 for a 4 week block prior the festive period.

ANGUSalve Service Recovery Summary

Sport & Leisure Services
