#### 4. CURRENT POSITION

4.1 AAPC have continued to work together to improve adult protection practice in Angus.

4.2 Of note this period is:

- The increase in referrals for multi-agency review of adult protection practice through the established Initial and Significant Case Review procedure in Angus;
- 2018 saw two referrals for Initial Case Review to AAPC. One of these has progressed to a Significant Case Review, with work ongoing at present. The recommendations from the other Initial Case Review have been remitted to the Policy and Practice Sub Committee to develop an Action Plan to take forward improvements in adult protection practice;
- 2019 also saw 2 referrals for Initial Case Review. One of these has progressed to a Significant Case review, with completion planned for the end of 2020; the other was referred to the Mental Welfare Commission and subsequently progressed to a Case review under AAPC;
- The development of a Protecting People Workforce Learning and Development Subgroup with a view giving staff access to a more comprehensive and coordinated learning and development programme, make best use of resources and further develop a range of more specialist training;
- Self-Evaluation and Continuous Improvement. National Adult Protection Committee Area Inspections were due to begin in 2020, however have been delayed due to COVID 19.
