30th November 2020

For the attention of Mr Ruari Kelly

Dear Sirs

**Seagreen - Balhungie Monifieth
Planning application reference APP/ 20/00692/FULN**

We are writing on behalf of our client, Mr J.G Porter, further to the planning application reference APP/ 20/00692/FULN, in respect of the diversion of the cable route through Balhungie Farm

As a result of ongoing negotiations with Seagreen, it was identified that an alternative route would be beneficial to our clients, as it would help mitigate or minimise potential adverse impacts on the farming operations at Balhungie Farm.

It was therefore agreed that the currently consented onshore cable route through the farm be revisited to consider a better design and route. Through further collaboration, a realigned section of the cable route was subsequently agreed that was acceptable both to our client and to Seagreen, and as such this route is supported by our client.

Should you require anything further please do contact me directly.

Yours faithfully

Larry Irwin MLE MRICS FAAV
Senior Associate Director
