Appendix 3	Link to list of Current Premises Licences
Appendix 4	Minutes of the Angus Local Licensing Forum and Angus Licensing Board 31 October 2019

1. Background

- 1.1 The Angus Licensing Board ("the Board") is constituted under Section 5 of Schedule 1 to the Licensing (Scotland) Act 2005 ("the Act") as amended. The Board is the licensing authority for the local government area of Angus for the purposes of the Act. The main administrative centre for Angus Council is based at Angus House, Orchardbank Business Park, Forfar, DD8 1AN.
- 1.2 Angus shares its borders with the City of Dundee, Perth & Kinross, and Aberdeenshire Councils and covers around 2182 square kilometres benefiting from 93km of coastline. Around 116,000 people live within the area which is set on the east coast of Scotland. The seven main towns in Angus are Arbroath, Brechin, Carnoustie, Forfar, Kirriemuir, Monifieth and Montrose.
- 1.3 This report is prepared on an annual basis as required by the Act¹. It will cover the Board's activity for the last financial year. There is additional information about the Board and its decisions on its website: -

https://www.angus.gov.uk/law_and_licensing/licensing/angus_licensing_board

2. The Licensing Board

- 2.1 The current Board was formed in May 2017 following the local government elections and comprises ten members, all of whom are elected members of Angus Council.
- 2.2 On 25 May 2017 all 10 current members received the statutory day's training from Alcohol Focus Scotland in licensing legislation and Board functions. This included a post training examination which required them to pass with a minimum of 75%. They all duly passed. Since this initial training and during the course of the last financial year, Board members continue to be notified of changes in the legislation when required and continue to keep their own knowledge up to date. The Board members have attended training, along with the wider group of Elected Councillors, which focussed on good decision making and good governance and part of the training focussed on quasi-judicial proceedings.
- 2.3 The Board recognises the need for development of understanding and awareness of licensing law and practices, and having up to date knowledge of the effects of alcohol on people across Angus. The Board are of the view that this is essential to making informed licensing decisions.
- 2.4 In the year from 1st April 2020 to 31st March 2021, the Board convened on ten

¹ Section 9A of the Licensing (Scotland) Act 2005

occasions to determine the applications and reviews as shown at **Appendix 1**. Applications permitted to be dealt with in accordance with the Board's Scheme of Delegation are shown at **Appendix 2**. A list of licensed premises in Angus can be found on the online licensing Register. A link to this is provided at **Appendix 3**.

- 2.5 Applications and reviews before the Board were dealt with in an open and transparent manner in accordance with current licensing legislation, the Scottish Government Guidance issued to Local Authority Licensing Boards and the Board's Statement of Licensing Policy. Despite the challenges brought by COVID – 19 restrictions, the Board's business has been able to continue through remote meetings and hearings. Members of the public along with applicants have been able to engage with meetings via live streaming and via Microsoft Teams/Zoom.
- 2.6 The Board is fully aware of the need to ensure that the licensing process is accessible to all and thus information and assistance is always available on request for those who require special arrangements to access any part of the process.
- 2.7 At the Board meetings, the Board attempts to make the process as informal as possible while remaining consistent with the carrying out of the Board's quasi-judicial function. The Board always attempts to follow best practice in enforcement including adoption of standards, which will, in its actions, be proportionate, accountable, consistent, transparent and targeted.
- 2.8 The Board recognises the benefits that remote meetings bring. Through the use of this technology, the Board has managed to continue progressing the business of the Board and applicants and licence holders have responded positively to engaging with the remote meetings. This has ensured that businesses have been able to apply for changes to their licences to ensure the smooth running of their business at an otherwise difficult time.
- 2.9 Under the Act, the Board is responsible for considering applications for:-
 - premises licences
 - provisional premises licences
 - temporary licences
 - occasional licences
 - personal licences
 - transfer of premises licences
 - variation of premises licences
 - extensions of licensing hours in respect of:
 - the sale of alcohol by retail; and
 - the supply of alcohol in members clubs

3. The Licensing Objectives

3.1 Section 4 of the Act sets out the following five licensing objectives ("the licensing objectives"):-

- preventing crime and disorder
- securing public safety
- preventing public nuisance
- protecting and improving public health, and
- protecting children and young persons from harm

3.2 The licensing objectives represent the principles upon which the licensing system is based. In exercising its functions under the Act, the Board has full regard to the licensing objectives. The Board acknowledges that the five licensing objectives carry equal weight and importance and are of paramount consideration when they are exercising their responsibilities. The Board recognises that its function is in respect of the licensing regime and therefore, focuses its determinations, when relevant to the licensing objectives, on matters which are directly related to the sale of alcohol, in accordance with case law.

3.3 Angus Council has byelaws in place prohibiting drinking in certain public places within the Burghs of Brechin, Carnoustie, Montrose, Forfar, Arbroath and Kirriemuir. These byelaws are intended to assist in making safe all public areas covered by them and further assist the Board in ensuring the licensing objective of securing public safety is being met. The Board is obligated to review these Byelaws every ten years and a review was carried out and completed during this financial year. No material changes were made to the byelaws following the review.

3.4 The Board further recognises that the licensing objectives provide potential reasons for refusal of an application for the grant, variation or transfer of a premises, temporary premises, or provisional licence, or an occasional or extended hours licence under the 2005 Act. In addition, that breach of the licensing objectives may provide grounds for reviewing any type of licence under the Act. Conditions attached to any grant of an application under the Act may, be based on any one or more of the 5 licensing objectives.

4 Equalities Mainstreaming Report

4.1 Angus Licensing Board continues to adopt Angus Council's Equalities and Mainstreaming Report and Equality Outcomes approved by Angus Council. Angus Council is committed to tackling inequalities and this commitment is demonstrated within the report. The Report contains outcomes which are agreed to be key in addressing and making progress with these important issues. The Board has adopted this Report with a view to carrying out its functions in accordance with the outcomes and ethos of the report.

- 4.2 The Equalities and Mainstreaming Report adopted by the Board, along with the outcomes can be found here:

[Equalities Mainstreaming Report and Equality Outcomes \(2019 - 2021\)](#)

5 Angus Licensing Board Statement of Licensing Policy

- 5.1 The Board's current Statement of Licensing Policy has been in effect since August 2018. A link to the Statement of Licence Policy can be found Here:

[Statement of Licensing Board Policy](#)

The Board consistently has regard to this policy when exercising its functions, and any relevant Policy and or statutory provisions are included in every Board Report which is prepared for each item heard by the Board. Any departures from policy have been reasoned out and determined on a case by case basis.

6. Duty to assess overprovision

- 6.1 The Board's current Statement of Licensing Policy includes a policy statement to the effect that it has not been possible to identify any locality where data supports a robust and compelling argument that the prevalence of licensed premises has reached, or is close to reaching overprovision. Therefore, there is no presumption against the granting of new licences within any locality in Angus. However, the Board recognises that each application for a premises licence requires to be determined on its own merits and the Board may still refuse an application if it is satisfied, from evidence presented to it, that there would be an overprovision of licensed premises in that locality if the application were to be granted. A review of this overall position will take place when a Review of the Licensing Policy next takes place.

7.0 Summary of decisions made by, or on behalf of, the Board

- 7.1 During the period 1st April 2020 – 31 March 2021 the Board heard and determined the applications detailed within Appendix 1.
- 7.2 In relation to applications, most applicants attend and many have legal representation to assist them with their application and attendance at the board hearing.
- 7.3 Members of the public are able to attend the Board meetings (remotely during this financial year) unless the Board determines to convene in private.

Minutes and Agendas are posted on the Council's website.

- 7.4 There are a number of licences which are issued out with a formal Board setting and are issued in line with the Scheme of Delegation. Occasional Licences are the most common type of application granted in this way.
- 7.5 In assessing applications, the Board used a considerable number of different sources of information to enable them to reach fully considered determinations. These sources included reports from Angus Licensing Standards Officer, Scottish Government Guidance issued to Local Authority Licensing Boards, Police Scotland, NHS Tayside, Angus Drug and Alcohol Partnership, Alcohol Focus Scotland, Scottish Fire and Rescue Service, Scottish Ambulance Service, Local Residents, Angus Local Licensing Forum, Angus Council Services including Building Standards, Environmental and Consumer Protection, Roads, Planning and Safe Events, Councillors' knowledge, information and or submissions made by objectors, members of the public, local licence holders, material from local and national news on alcohol issues and misuse, relevant legislation and applicable case law, as well as guidance and advice obtained from the Board's licensing practitioners.

8 Objections

- 8.1 If objections are received, all entertained objections and representations are taken into account in the Board's decision making process. All objectors are invited along to the Board meetings in order to be heard in person in addition to their written representations. The Board, are also able to impose additional conditions which address concerns being raised by objectors and always give reasons for their decisions.

9 Licensed Hours

- 9.1 In granting licences the Board recognises that licensing hours are important to individual licensed premises, but can have a wider impact for an area. Balanced against this, the Board does not wish to unnecessarily inhibit the development of thriving and safe evening and night time local economies which are important for investment, employment and tourism. The Board considers that the on sale policy hours are appropriate for Angus and represent a balance between the interests of the public, residents, licensed businesses and patrons of licensed premises.
- 9.2 For applications relating to occasional Licences and general licensed premises (except for off sale licensed premises) – the licensed hours permitted by the Board are:-

11.00 am to 12.00 midnight on Sundays
11.00 am to 12.00 midnight - Monday to Thursdays (inclusive)
11.00 am to 1.00 am Friday and Saturday

For applications relating to licensed premises where the activities permitted to be carried on as specified in the operating plan comprise public entertainment (such as dance halls, discotheques and night clubs) and provided that alcohol is sold as an ancillary to the entertainment , the licensed hours generally permitted by the Board are:-

11.00am to 12.00 midnight on Sundays

11.00am to 12.00 midnight Monday to Thursdays (inclusive)

11.00am to 2.00 am Friday and Saturday

- 9.3 In terms of the Act, the sale of alcohol for consumption off the premises is not permitted before 10.00 am and after 10.00 pm. The Board's policy is that maximum available licensed hours of 10.00 am to 10.00 pm each day are generally appropriate for off sales. However, each off sales application is assessed on its own merits against these licensed hours and the Board aims to ensure that the licensing objectives are being promoted in such applications. If this is not demonstrated to the Board, the Board may grant reduced hours for off sales.
- 9.4 Each application for a premises licence is assessed on its own merits against the on sale policy hours appropriate to the type of activity for which a licence is being sought. Where an application received is requesting licensed hours exceeding 14 hours, the Board will require further information for the consideration of such applications and the Board will take into account the effect of granting such a licence will have on the area.
- 9.5 Should an application be received in respect of opening earlier than 11am, the Board will expect the applicant to justify their request and demonstrate measures that promote the five licensing objectives. During this financial year, the Board has granted a number of applications requesting applications outwith the Policy hours. These have been dealt with on a case by case basis having heard submissions from the applicant or their agent on why this should be allowed. The Board has, in these circumstances, occasionally granted such requests and has usually looked to impose conditions. In general, the Board continues to follow its Policy in regard of operating hours.
- 9.6 Extended hours applications are individually assessed on their own merits. When the extended hours sought are in respect of on sale premises and fall out with on sale policy hours appropriate to the applicant's premises, the applicant is required to demonstrate to the Board that there are good reasons for the hours sought and that the hours are appropriate in the circumstances. The applicant will require to provide the Board with sufficient information to enable a decision to be made in this regard. This information will include:-
- the hours sought;
 - a description of the special event or occasion;
 - the proposed activities to take place during these hours;
 - when each activity will take place;

- information regarding steps taken to avoid any extension causing a public nuisance;
- why the event or occasion is considered to be special;
- why the event or occasion cannot take place within the on sale policy hours appropriate to the applicant premises.

10 The Angus Local Licensing Forum

- 10.1 The role of the Angus Local Licensing Forum ("the Forum") is to keep under review the operation of the Act in the Angus area, to review the relevant Board functions, give policy advice and make recommendations to the Board as the Forum considers appropriate.
- 10.2 The Forum was first established on 22 November 2007. The Forum's membership consists of premises and personal licence holders, local residents, representatives from Angus Council Health Education and Social Work Service, representatives of the Angus Drugs and Alcohol Partnership (A.D.P), representatives from Police Scotland and the Angus Licensing Standards Officer. The Forum meets on a quarterly basis.
- 10.3 The Forum has met less frequently during this last year as a result of COVID-19 restrictions and options for how this will operate in the future are being considered.
- 10.3 The Licensing Board are formally required to meet with the Forum at least once in each calendar year. They jointly meet every year in October/November and have done so since 2008. A copy of the joint minute of the Joint meeting of the Forum and the Board held on 31 October 2019 is attached **as Appendix 4**. The Minute of the meeting of the Forum and the Board in 2020 is due to be placed before their Joint Meeting for approval at its meeting in November 2021.

11 Conclusion

- 11.1 The Board are fully aware of the extreme difficulties experienced by the Angus licensing trade since March 2020 as a direct result of the COVID 19 Pandemic. The Board recognises the detrimental human cost and financial impact made upon the trade and have aimed as always, to assist the trade where they could. The Board wishes every licensed premises in Angus the very best of wishes in their recovery.

The Board are delighted to report that, when permitted to open during the Pandemic, licensed premises in Angus have been extremely well run. The Board in particular applauds the trade's adherence to the applicable UK and Scottish Government legislation and regulations. In this respect, the Board thanks the licensed trade in its efforts in promoting and upholding the licensing objectives and complying with the Board's Statement of Licensing Policy particularly during this extremely difficult time.

- 11.2 Whilst the Board accepts that licensed premises in Angus are well run and regulated, the Board will continue to ensure that high standards are maintained and the licensing objectives of the 2005 Act are complied with in the period 01/04/2021 to 31/03/2022.
- 11.3 The Board expresses its extreme gratitude of the efforts of the many officers, partners and stakeholders involved in ensuring that licensed premises in the Angus area are compliant with, and kept well informed of, the requirements of the vast array of licensing legislation and regulations.

Appendix1

List of Applications determined at the Board 1 April 2020 – 31 March 2021. This table provides a summary of the decisions however, more details can be found within the Minutes of the Board Meetings which are available to view on the Angus Licensing Board section of the website: - https://www.angus.gov.uk/law_and_licensing/licensing/angus_licensing_board

Sheena Cochrane, Chair of Angus Licensing Forum in the Chair

1. WELCOME AND INTRODUCTIONS

Sheena Cochrane welcomed all those present to the twelfth Joint Meeting of the Angus Local Licensing Forum and Angus Licensing Board. Thereafter introductions were made.

2. MINUTE OF PREVIOUS JOINT MEETING

There was submitted and noted the minute of meeting of the Joint Meeting of the Angus Local Licensing Forum and the Angus Licensing Board of 1 November 2018.

3. ANGUS LOCAL LICENSING FORUM

Sheena Cochrane, Chairman of the Forum, reminded those present that there was a statutory requirement for the Licensing Board and the Forum to meet together at least once a year. She stressed that the joint meeting marked the continuation of a positive relationship between the Licensing Forum and the Licensing Board and that the Forum had a wide range of knowledge, interests, experience and skills, all of which were available to the Board to help them in developing and exercising their functions.

As a Forum, Mrs Cochrane felt members experience had grown over the past twelve years and were now well on their way to carrying out their remit as set out in the 2005 Act. It was also heartening to have such a good working relationship with the Board. She thanked the Board for allowing this Joint meeting with them to take place at 10am to help accommodate the volunteers that were members of the Forum.

She advised that the membership of the Forum had changed since last year and they had welcomed Bruce Sheridan, who was a Personal licence holder on to the Forum. Bruce had a wealth of experience on licensing matters having been in the trade for a number of years and would be an asset to the group.

It was noted that during 2019, the members of the Forum had received Equalities training for volunteers from Doreen Phillips, Senior Practitioner (equalities) which they had found very interesting and useful.

The members had also met with the new LSO Daniel Coleman in June 2019 and looked forward to working more closely with him and receiving his regular updates and reports to the Forum meetings. The Forum members had noted that this year had been another busy year for the licensing team and that a number of special meetings had been convened to deal with applications and urgent matters. They also noted the large amount of work involved in producing the annual functions report.

Sheena thanked the licensing team for the way that they had dealt with the large number of Personal Licences that required to be renewed by 31 May 2019. This had been a huge task to complete especially when the team was very short staffed. She also thanked Angie Merriless, Forum member, who in her day job had helped train over 400 personal licence holders.

She thanked the representatives from Police Scotland for their informative reports to the Forum over the last year and was heartened to know that they were on hand to help licensees should they require advice about any issues they may have.

In conclusion, Mrs Cochrane thanked Forum members for their commitment to take their role seriously and attending meetings without fail. She also thanked Angus Council for the administrative and financial support which had been given to the Forum in the past year.

4. ANGUS LICENSING BOARD

On behalf of the Board, the Convener, Councillor Craig Fotheringham, expressed their appreciation for the opportunity to hold an annual joint meeting and indicated that it underpinned the mutual benefit of working together for the people of Angus. Both organisations strived constantly to encourage responsible drinking within the County and to work towards reducing anti-social behaviour.

Councillor Fotheringham advised that since the last joint meeting of the Angus Licensing Board and Licensing Forum on 1 November 2018, the Angus Licensing Board has met on ten occasions and during these meetings the Board has dealt with the following matters : -

- 6 new premises licence applications
- 2 provisional premises licence applications
- 9 requests to vary premises licences
- 2 reviews of premises licence

- 5 review of premises licences for non-payment of fees
- 9 matters pertaining to Personal Licences
- 3 Extended Hours applications
- 0 Occasional Licence applications

The following applications were also dealt with in accordance with the Scheme of Delegation, as at 7 October 2019:

- 595 Occasional Licence applications
- 7 Extended Hours applications
- 340 Personal Licence applications
- 63 Requests for minor variation or transfer
- 3 Premises licence has been surrendered

As of 7 October 2019, there were 347 premises licences in-force;

- 105 on-sales
- 154 on/off sales
- 858 off sales

Last November saw the departure of previous Licensing Standards Officer Mark Gillespie and Solicitor Tina Magson. Both have since been succeeded by Daniel Coleman LSO and Lynsey Kimmitt Solicitor in April 2019 and have settled well into their respective roles.

The Convener advised that since the last joint meeting, we had seen the first 10 year renewal process of Personal Licences, with the deadline of 31st May 2019 for the majority. There had been 264 Personal Licences due for renewal on 31st May 2019, which increased the workload of an already over stretched Licensing Team. Of these 264, 117 did not renew in time. Overall, 191 Personal Licences had been successfully renewed in Angus. The expiry of some was due to natural slippage, but the expiry of others had been through late submission and the licensing team had worked extremely hard with the public to solve issues as they arose.

During 2019, the Board responded to a Scottish Government Consultation on reviewing the fee for occasional licences and considering a limit on the number and duration of occasional licences. A response was sent indicating that an increase from the current fee of £10 would be justified, with administrative costs of processing the application being well in excess of £10. Given the huge diversity in the occasional licence applications received and the cost to the Board varies, the Board recommended that a tiered structure be introduced. The Board would want any increases to be balanced with the highest fees being charged to the commercial types of applications (e.g. larger, profit making events) which incur the substantial work and the lower fees being charged to the smaller event applications. He advised that the Board would not want any increase to unfairly hamper small businesses or small charitable events and a balance must be struck. It was very difficult to set a fixed rate but there was no doubt an increase was required given the work generated.

The Board had also noted with dismay that there had been some applicants utilising the occasional licence process to circumvent the premises licence process. The Board therefore recommended to the Government, that there must be consideration given to this as it is not within the spirit of the Act. The Board would suggest introducing a requirement for an applicant to demonstrate that:

1. The event they are applying for is an “occasion”. An “occasion” must therefore be defined in legislation; and
2. They are seeking a Premises Licence. That is, should an applicant be part way through a Premises Licence process, they are permitted to be granted Occasional Licences for the interim period.

However, the Board did not deem the high volume of applications in terms of farmer markets for off-sales to fall into this category. On the contrary, the Board was pleased that such business was booming in Angus and its recommendation was targeted at businesses such as shops and cafes who frequently apply for occasional licences instead of a full premises licence.

He advised that the Board had also responded to a Scottish Government consultation on the draft revised Licensing Board Guidance issued by the Scottish Ministers. The first guidance for Licensing Boards had been issued in April 2007 to support Boards in the exercise of their functions under the Licensing (Scotland) Act 2005. One of the purposes of the guidance was for the Scottish Ministers to give guidance to Licensing Boards on the effect of the complex areas of, and interactions between, the legislative provisions. That guidance, however, had not been updated to reflect the major changes since then, such as the numerous amendments made to the Licensing (Scotland) Act 2005 brought about by the Air Weapons and Licensing Scotland Act 2015.

The Board had responded to the new draft revised guidance in a positive fashion, as they considered the guidance to be helpful and easy to navigate. The guidance was clear and provided assistance when dealing with licensing procedures.

He concluded by expressing his pleasure at the high standard of licensed premises within Angus and thanked the Clerk, licensing staff and LSO in respect of the visits he undertakes, and any issues that arise from them. He felt that the licensing trade continued to work together in a co-operative manner with the LSO and licensing team as a whole, making sure that standards were upheld, and the five licensing objectives adhered to.

He wished the Licensing Forum every success in the year ahead and hoped to continue to attend future meetings.

5. UPDATE BY POLICE SCOTLAND

PC Forbes gave members an update on the work currently being undertaken by Police Scotland and explained to Angus Licensing Board members how it was very important for licence holders to have the correct paperwork on display in the premises or stored in an area within the premises where other members of staff were made aware of its location. This paperwork was required for inspection and should always be made available to officers. It was hoped that over the next year, Police Scotland would continue to make licence holders more aware of this requirement.

He advised that there were no major issues within Angus and early intervention regarding any troublesome licensed premises was found to be the best approach to help avoid further problems in the future.

The Chairman thanked PC Forbes for his update.

6. CHIEF CONSTABLES REPORT TO ANGUS LICENSING BOARD

There was submitted and noted the Chief Constables Report to the Angus Licensing Board for the period 1 April 2018 to 31 March 2019.

7. ANNUAL FUNCTIONS REPORT – SECTION 9A OF THE LICENSING (S) ACT 2005

There was submitted and noted for information, Report No LB 56/19 by the Clerk advising of the new statutory requirement to produce an Annual Functions Report and presenting the second Annual Functions Report for the period 1 April 2018 to 31 March 2019 as detailed in Appendix 1 to the Report.

The Report indicated that on 20 December 2017, Section 56 of the Air Weapons and Licensing (Scotland) Act 2015 amended Section 9 of the Licensing (Scotland) Act 2005 and inserted a new Section 9A which obliged all Licensing Board to produce an Annual Functions Report no later than 3 months after the end of each financial year ending on 31 March.

The members noted the information provided.

8. TIMETABLE OF MEETINGS FOR 2020

It was agreed that the Forum meet on the following dates: -

Monday 24 February 2020

Monday 1 June 2020

Thursday 26 November 2020 (Joint meeting with Angus Licensing Board).
