>

> For the attention of roads and transportation department Angus council

>

> To whom it may concern

>

> I am objecting to the letter I received about extending the footpath at the end of the road,

>

> The reason I am objecting to this is because I can't see why they are adding a footpath and I fear that this will change at a later date to more housing being built.

>

> I moved to wellbank with my wife 5 years ago to enjoy our retirement after living in the town all our lives, I would never of bought this property if there were to be houses built right beside it.

> We would lose all our privacy and I fear this will decrease the value of our property.

>

> I have spoken to the field owner mr Niven and he assured me it was for access for himself to get to the field but I simply can't see why he would go to the expense of extending a footpath without there being an alternative motive.

>

> Myself and my wife have both been through cancer and need to attend the hospital regularly. this will make things harder if the plans go ahead as the road is very narrow as it is and with limited parking with my house sitting right beside the field I fear that we will be blocked in and not able to get in and out.
