For the attention of; Roads and Transportation

Dear Sir/Madam

Proposal to extend footpath at the end of existing road

I write in connection with the above planning application.

I have talked to fairhurst about these plans and I know the site well and I wish to object strongly to these plans for a footpath as they stated it was for agricultural access!

The fact that years have went by and they have never needed access before also they couldn't comment further that it won't lead to housing or building down the line concerns me greatly?

The fact that it would increase more traffic alone is a worry for me as I have a disabled son and one of our reasons for us moving here was there is no traffic in this street that doesn't need to be here and it was to assure his safety as best we could, also I know the land has drainage issues so any work would possibly impact on drainage issues on the existing houses and land there about, also the noise and disturbance resulting from use would impact severely on our home life.

I trust you will take our concerns into consideration and hope they will have bearing on your decision to reject this application?

Yours faithfully

Wendy Duncan
