Appendix 4.1b

Dear [REDACTED]

Angus Bernal (Spous for people) Variation of speed limits order 202x

Thank you for replying to my objection via the post as well as on line.

My original letter to the council was just about the cost to the taxpayers of this project. Over Scotland as a whole many millions must have been spent on signage alone for something allegedly temporary (surely it was never intended to be temporary). This at a time when the government and council are constantly complaining that they have no money to improve the NHS and many other council run services. I wonder how many doctors and nurses could have been trained with the money wasted on this dubious project?

However my concern about wasting taxpayers' money changed to one about the project in principle when 20mph limits were introduced in places where they do not seem at all necessary - many in Tayside practically in the middle of nowhere - at best semi rural.

Please note, I write as an ordinary citizen. I have no political affiliation and no particular love for motor vehicles. I do agree the scheme should be implemented near schools.

Yours Sincerely

[REDACTED]

PS. I have this will be my final observation on the scheme as that it will be put to the council with the others.
