Subject: Re: FW: Road management order 202x

Hello
No I am not willing to withdraw my objection.
Yet again yesterday a car blocked my drive which is actually shared by 4 properties

Dear [REDACTED]

Thank you for your below email objecting to The Angus Council (School Friendly Zones) (Traffic Management) Order 202x.

The aim of the proposed Order is to provide and maintain protected, safe and sustainable communities within a small area that is enjoyable and forms a natural and built environment outside the schools.

Ferryden Primary School was identified as one of the schools by Roads & Transportation officers in consultation with a dedicated stakeholder group for the school, comprising Police Scotland, local councillors, Community Councils, school staff and members of the relevant Parent/Council/Teachers' Association. The council's Communities Committee agreed to approve the making of the Traffic Regulation Order for the chosen school sites.

Effective school friendly zones can help encourage active lifestyles, increases in walking and cycling journeys, fewer car trips and improved road safety outside schools during peak periods due to less motor vehicle movements. They can also lead to reductions in child obesity.

The rationale behind the initiative is that the road network outside the school gate or in the surrounding streets will be closed to vehicular traffic, except cycles, blue badge holders, resident permit holders, school buses and emergency vehicles for set periods each day.

However, it was accepted that certain drivers will disregard good practice and some enforcement activity by Police Scotland and the Council's Enforcement Wardens who deal with Decriminalised Parking Enforcement, would be necessary. As part of our partnership working, Angus Council works closely with Police Scotland when considering any possible changes to the road network.

I hope the above provides some background with respect to the reasons for the proposals to make permanent the temporary school friendly zones, as published in The Courier on Friday, 16 September 2022.

Please note that where there are objections to a proposed Order that are not withdrawn then procedures dictate that a report is placed before the Communities Committee for a final decision on whether to proceed with the making of the Order. Copies of all correspondence between us will be made available for consideration by the committee in advance of the committee meeting.

I would be grateful if you would consider the matter further and advise me if you are willing to withdraw your objection to the proposed

Order?

Yours sincerely

I am writing to object to the order.

Yes you are probably solving the traffic issue at Ferryden school but have created a traffic issue in St Brioc Way I live in the flats at the road junction onto Craig Road.

People with kids at the school are causing traffic obstructions on St Brioc Way and even on a number of occasions blocking our driveways which is unacceptable.

Also people parking on Craig Road are causing obstructions turning out of St Brioc Way as they are parking far too close to our junction.

I have seen Police observing traffic beside the lollipop person but they never observe what is going on this street.

This afternoon a mum parked in a very bad position opposite other cars almost blocking everything.

If a van had come into our street it would not have been able to get through the street.
