Application Number: 22/00460/FULM

Address: Montreathmont Moor Forest Montreathmont Forfar

Proposal: Proposed solar farm of up to 42MW and battery energy storage system (BESS) with associated infrastructure

Case Officer: Ed Taylor

Customer Details

Name: Mr Steven Anderson

Address: Montreathmont Moor House Montreathmont Moor Brechin

Comment Details

Commenter Type: Member of Public

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment:As my house is the only property within the map boundary, as you will not be able to see the site from the main and back roads, I have no objection to this plan.

This will be a more positive impact on our energy issues.

The map for the proposal shows farm, agricultural land, therefore no dog walkers will be impacted as no walkers use the fields.

This leaves the forrest still free for recreational activities, which is infrequent at the best of times.

The ground under the panels will be safe for ground nesting birds, insects and bugs, good for wildlife.

Good to hear this plan is closer to completion, responsible descision.
