Section 1 :	Introduction
Section 2 :	General Principles
Section 3 :	Consultation
Section 4 :	Angus Housing Market Areas: Established Sites & Programming
Section 5 :	Completions in Angus
Appendix 1 :	Effectiveness Criteria
Appendix 2 :	Glossary and Terms

## **SECTION 1 : INTRODUCTION**

- 1.0 The annual audit of housing land provides a factual statement of land supply within Angus Council's administrative boundaries. Only sites with a capacity of 5 or more units are included, although aggregate details on the capacity of smaller sites is also given.
- 1.1 This audit is the result of a survey undertaken in April 2014, and covers a twelve month period. The base date for the audit is 31 March 2014, which has been established in order to meet the requirements of the TAYplan Strategic Development Plan.
- 1.2 TAYplan was approved by Scottish Ministers on 8 June 2012. The audit gives details of the land supply for each of the four housing market areas in the Angus part of the TAYplan Strategic Development Plan area including the South Angus Housing Market Area which is part of the Greater Dundee Housing Market Area.
- 1.3 The Scottish Government's Planning Advice Note (PAN) 2/2010 provides guidance on the content of housing land audits. This guidance has been followed in preparing the Angus Housing Land Audit 2014.

## **SECTION 2 : GENERAL PRINCIPLES**

- 2.0 Housing sites are included under the Housing Market Area in which they are located. The audit provides a range of information relating to each housing site:
- The schedules in Section 4 are grouped by effective supply and constrained supply, as defined within PAN 2/2010 (see Appendix 1).
  - Each site has a unique site reference followed (where appropriate) by the Local Plan reference, the name of the site and the developer or applicant.
  - The status of the site relates to whether the site is under construction, identified in a local plan or has planning permission or other Council approval.
  - The approval date refers to the date of publication of the relevant local plan or the date that the latest planning permission was issued.
  - The number of houses still to be completed on each site is included and an assessment is made of the potential yield from the site in the programming columns.
  - Details of the number of completions in the preceding year are included in the schedules.
- 2.1 The potential yield figures take into account past trends and completions, either on-site or within the housing market area. The effects of the continuing financial difficulties for the house-building industry have been considered and where appropriate a cautious approach has been adopted in predicting future yield from development sites. More generally, emphasis is made that the likely yield is indicative and will undoubtedly vary from the actual figure.
- 2.2 The last component of this audit (Section 5) sets out the number of completions recorded on sites of five or more houses for each settlement/area. The aggregate number of dwellings that is expected to come forward on small sites (less than 5 units) is included in the audit tables, but Angus Council does not consider that completions on these sites will contribute to meeting the TAYplan requirements for housing land. These sites will however have a role to play in augmenting the supply of effective housing land and in contributing to meeting the TAYplan annual average build rates.

### **SECTION 3 : CONSULTATION**

- 3.1 The audit has been subject to consultation with the Scottish Government; Homes for Scotland; Scottish Water; Scottish Environment Protection Agency and the public via the Angus Council website and through advertisement in the local press. Where possible, landowners, developers and registered social landlords (RSLs) that have an identified interest in the development of housing land across Angus were contacted individually, to further increase opportunities for participation in the audit process.
- 3.2 The Council received a total of 25 responses to the draft housing land audit from developers and landowners. In addition, responses were received from Scottish Government, Scottish Water, Scottish Environment Protection Agency, Transport Scotland and Homes for Scotland. Where appropriate, responses have resulted in a number of changes in the finalised audit.
- 3.3 A number of consultation responses, including the response from Homes for Scotland, questioned the effectiveness of various sites within the draft audit, principally on the grounds of marketability. These responses have led to a reassessment of some sites within the housing land audit. In addition to the criteria from the Scottish Government's PAN 2/2010, sites have been classed as constrained where they meet two or more of the following criteria:
- 1) there is no developer associated with a site;
  - 2) planning permission is within one year of expiring and no renewal has been sought, or where planning permission was granted over two years ago and no effort has been made to obtain a building warrant;
  - 3) the site characteristics indicate the likelihood of high development costs.
- 3.4 As a result of this additional re-assessment, the following sites have been moved from effective to constrained in the finalised audit:

<b>Site reference</b>	<b>Name</b>	<b>Nature of constraint</b>
BRB135	59 Clerk Street, Brechin	Marketability
MOM037	Waldron Road, Montrose	Marketability
BRL073	Mains of Farnell	Marketability
MOL108	Glenskinno Farm, Wellhill	Marketability
FKF089	Beechhill Nursery, Lour Road, Forfar	Marketability
FKF155	Whitehills Nursery, Forfar	Marketability
FKL378	Jubilee Park, Letham	Marketability
FKL562	Bellahill Farm, Melgund	Marketability

- 3.5 Whilst Angus Council and Homes for Scotland reached agreement on all sites following a meeting on 14 July 2014, Homes for Scotland noted continuing concerns with the current effectiveness of two sites within the audit; New Road, Forfar (Reference: FKF088) and Dundee Road, Forfar (Reference: FKF156). Angus Council has noted these concerns and agreed to further

investigate the effectiveness of these sites in advance of preparing the Draft 2015 Angus Housing Land Audit.

- 3.6 Several consultation responses also sought a change to the site programming within the draft audit. The Council accepts that interested parties often have a greater knowledge of the future development prospects regarding their site(s); however it has been important to ensure that the overall projections for new completions remain realistic. Where an increase in programming could be made for an individual site without significantly affecting the overall projected completions within a town or housing market area, these suggestions have generally been accepted in line with consultation responses. The programming on the following sites have been amended in line with consultation responses:

Site reference	Name	Comment / Details
BRB053	Bearehill/Rosehill	Units to build amended and programming updated to 14/15 – 11 units and 15/16 – 11 units.
BRB138	Park Road, Brechin	Programming amended to 15/16 – 3 units and 16/17 – 5 units.
MOM016a	Brechin Road, Montrose	Programming amended and all Units to Build brought forward into 14/15 period.
MOM016b	Brechin Road, Montrose	Programming brought forward two years in-line with recent planning permission.
ACA198	Montrose Road, Arbroath	Reduction in programming from years 15/16 to years 20/21. Now includes Later Years.
ACA200	Ernest Street/Palmer Street, Arbroath	Programming pushed back one year.
ACA263	Wardmill Road/Andrew Welsh Way, Arbroath	Programming pushed back one year.
ACC087	Victoria Street, Former Maltings, Carnoustie	Programming amended for years 15/16 & 18/19.
ACC100	108 High Street, Carnoustie	Programming amended and all Units to Build brought forward into 14/15 period.
DUL341	Shank of Omachie, Wellbank	Programming brought forward two years in-line with recent planning permission.

- 3.7 In addition to the above changes, it emerged during consultation on the draft audit that a site in Forfar had been omitted in error. This site has been subject to the same assessment as other sites ( using the additional criteria set

out in paragraph 3.3) and has been added to the finalised audit as an effective site. The details for this site are set out below:

<b>Site reference</b>	<b>Name</b>	<b>Number of Units</b>
FKF213	Roberts Street, Forfar	22

- 3.8 Angus Council would like to thank all of those responding to the draft Angus Housing Land Audit 2014 for their input, which has helped to align the audit process with the expectations and commitments of those involved in building new homes across the Angus area.

## **APPENDIX 1 : EFFECTIVENESS CRITERIA**

The following criteria for judging the effectiveness of housing sites within the established supply are taken from PAN 2/2010: Affordable Housing and Housing Land Audits.

**Ownership:** the site is in the ownership or control of a party which can be expected to develop it or release it for development. Where a site is in the ownership of a local authority or other public body, it should be included only where it is part of a programme of land disposal.

**Physical:** the site, or relevant part of it, is free from constraints related to slope, aspect, flood risk, ground stability or vehicular access which would preclude its development. Where there is a solid commitment to removing the constraints in time to allow development in the period under consideration, or the market is strong enough to fund the remedial work required, the site should be included in the effective land supply.

**Contamination:** previous use has not resulted in contamination of the site or, if it has, commitments have been made which would allow it to be developed to provide marketable housing;

**Deficit Funding:** any public funding required to make residential development economically viable is committed by the public bodies concerned.

**Marketability:** the site, or a relevant part of it, can be developed in the period under consideration.

**Infrastructure:** the site is either free of infrastructure constraints, or any required infrastructure can be provided realistically by the developer or another party to allow development.

**Land Use:** housing is the sole preferred use of the land in planning terms, or if housing is one of a range of possible uses other factors such as ownership and marketability point to housing being a realistic option.

## **APPENDIX 2: GLOSSARY OF TERMS**

***Brownfield land:*** Land which has previously been developed. The term may encompass vacant or derelict land; infill sites; land occupied by redundant or unused buildings; and developed land within the settlement boundary where further intensification of use is considered acceptable.

***Constrained housing land supply:*** That part of the established housing land supply which at the time of any audit is not assessed as being effective.

***Effective housing land supply:*** The part of the established housing land supply that is free or is expected to be free of development constraints in the period under consideration, and will therefore be available for the construction of housing.

***Established housing land supply:*** The total housing land supply – including both constrained and unconstrained sites. This will include the effective housing land supply, plus the remaining capacity of sites under construction; sites with planning consent; sites in adopted local plans; and other land and buildings with agreed potential for housing development.

***Greenfield land:*** Land which has never been previously developed, or fully-restored formerly derelict land which has been brought back into active or beneficial use for agricultural, forestry, environmental purposes, or outdoor recreation.

***Housing Land Audit:*** The mechanism for monitoring the housing land supply and identifying those sites within the established land supply which are expected to be effective within the period under consideration.

***Housing Land Requirement:*** The difference between a figure arrived at by considering market demand, demographic need and other relevant factors, and the effective housing land supply.

***Housing Market Area:*** A geographical area which is relatively self-contained in terms of housing demand; i.e. a large percentage of the people moving home or settling in the area will have sought a dwelling only in that area.

***Private sector housing:*** Housing for sale or rent provided by private developers or other commercial organisations. The term “owner-occupied sector” excludes the private rented element.

***Public sector housing:*** General and special needs housing provision by registered housing associations, local authorities and other social housing providers for rent.
